### Over A Century Of Success

We adapt to our customers' needs. From a ship chandler in 1912, Hillman has evolved into a full service metals distribution center. For over a century, Hillman Brass & Copper has remained a family-owned business, delivering personal service and quality products. Our founder H.M. Hillman would be proud.

125 Market St., Philadelphia

## A Philosophy Centered On Customer Relationships

---

It is Hillman's business philosophy and practice to develop a close working relationship with our customers. We ensure your success through our quality products, professional staff, competitive pricing, reliable delivery and outstanding customer service.

## Invest In Our Experience

---

Hillman Brass & Copper has been specializing in the metal service industry for over a century. Our people have the in-depth product experience to create a tailored, efficient, and perfectly crafted job. We will save you time, increase your productivity, offer you prompt, courteous service and deliver a better product at a competitive price.

BRASS & COPPER

## Our Products

Since 1912, Hillman Brass & Copper has been a prime source of non-ferrous alloys for industry and government. We stock copper-based specialty alloys in sheets, plates, rods, bars, and tubes. These alloys include, but are not limited to, copper nickels, aluminum bronzes, and naval brass - all to Level 1 SUBSAFE requirements.

## Full Product Selection

Metals:

- Copper-based Alloys: C71500, C70600, C46400
- Mil Specs: 15726F, 16420K, 15005F
- Commercial Specs: ASTM & ASME

Forms:

- Plate
- Sheet
- Round rod
- Tube

## Quality Program

Hillman's Quality Department is what drives the company. The quality requirements of the United States Navy helped form Hillman's quality policies and procedures. Our program is qualified to MIL-I-45208A and is also ISO 9000 compliant. Everything we ship is Level 1 SUBSAFE.

## Our Services

We're more than just our metal. What sets us apart from our competition is our cutting and rough machining capabilities. Whatever your requirements, our skilled workforce can give you exactly what you're looking for.

## Processing Services

Our processing services include cutting to length, shearing, and sawing standard and custom shapes. We can also create custom shapes or semi-finished parts, ready for your final finishing and assembly. Working directly from your CAD/DXF file or drawing, we can water jet machine complex parts out of virtually any material.

## On-Site Library

Our on-site "Hillman Library" of government specs dates back to the 1930's. If you're looking for answers to seemingly impossible questions regarding old part numbers and specifications, look no further. We have a specifications inventory that's second to none.

### We Give You Peace Of Mind

We are a Level 1 supplier maintaining 100% traceability of every piece of metal that leaves our shop. Materials are produced by DFARs mills. We make sure the paperwork stays correct.

We ship fast – normally within 48 hours of receiving the order. Sometimes, more quickly. We also supply very large orders via mill purchases.

No order is too small. All requests are important to us.
